

Linking Trackers

Monitor your daily habits and improve your health.

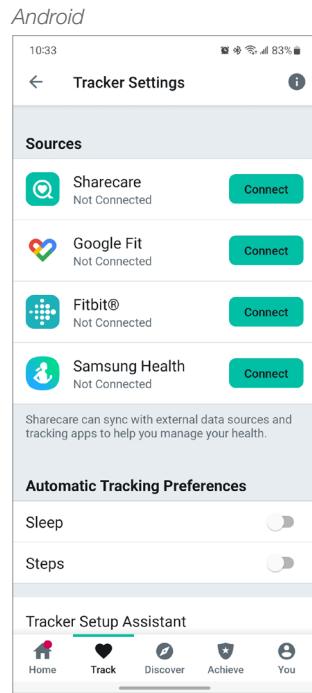

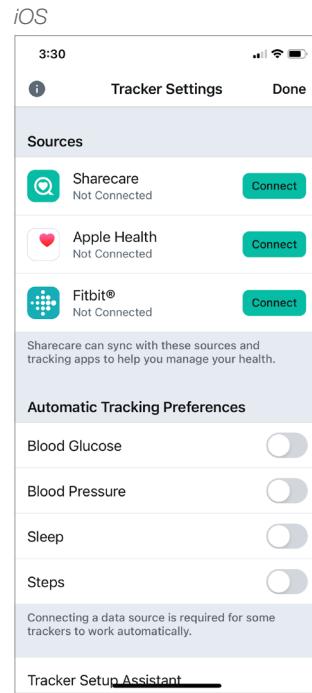

For automatic tracking, link your wearable device with Sharecare. Then, be sure to sync your device daily with its corresponding app for seamless automatic input of your activity.

Mobile app

- 1** Sign in to the Sharecare app. Select **Track**. Then, select the **gear icon**. On Android, select the **three vertical dots** then select **Settings**.

- 2** Select **Connect** next to your device.

Web

- 1 Sign in to your Sharecare account. Select **Track**. Then, select the **gear icon**.

The screenshot shows the Sharecare web interface. At the top, there is a navigation bar with links for Home, Track (circled in red), Discover, Achieve, and You. A search bar and a settings gear icon are also in the top right. The main content area is titled 'Home' and 'For You'. On the left, there is a sidebar with 'Care Reminders' and a 'Schedule your appointment' button. The main content area features a 'Check out your health benefits here!' section with a 'PARTNERS FOR HEALTH' logo. The central part of the screen is the 'Track' section, which includes a 'Tracker Summary' table and a calendar for July 2024. The calendar shows various tracked items like Diet, Fitness, Steps, and Medication. The top right of the track section also has a settings gear icon.

- 2 Select **Tracker**. Then, select the **Connect** button next to Fitbit.

The screenshot shows the Sharecare Settings page. The left sidebar has a 'Tracker' button highlighted with a red box. The main content area is titled 'Tracker' and shows a 'Sources' section. Under 'Sources', there is a list of trackers: Fitbit®, Sharecare (Not Connected), Google Fit (Not Connected), Health App (Not Connected), and Samsung Health (Not Connected). The 'Fitbit®' entry has a 'Connect' button highlighted with a red box.
